RE: **Loud Noise Reminder - Keep it Quiet!**

A reminder that sounds can easily carry through the building especially from adjacent apartments, balconies and from the parking lot, and are disturbing to other residents especially when trying to sleep. Please be respectful of your neighbors.

Remember to keep the volume of your voices, televisions, stereos, etc. at a reasonably low level to avoid disturbing your neighbors, particularly after 10:00PM.

You are advised to contact the police if the noise is continuously too loud at any time and after asking the unit to be quieter.

Also, a reminder that units with hardwood floors are required to have area rugs in place to soften the noise to other units. Failure to comply can result in fines to the unit.

Please read the Handbook's Rules and Regulations for more information. Copy is available at www.thehillcondo.com.

Thank you for your attention to this important matter.
