RE: **Snow Cleared Parking Spaces**

Reminder for Winter months to move your vehicle(s) from snow covered spaces so the snow plow truck can clear as many spaces as possible.

This is especially important after a snow event when snow plow truck is passing thru final time to clear parking spaces.

Vehicles not moved before the final pass thru should clear snow around their vehicle or could be subject to fines and/or towed at vehicle owner's expense.

Shovels should be available at the rear exit to help clear around your vehicle if needed.

The goal is to have all parking spaces cleared of snow and ice.

Thank you for your cooperation in this important matter.
