RE: **Snow Cleared Parking Spaces**

A reminder for the Winter months, if you are able, please move your vehicle(s) to a cleared parking space when the snow removal truck passes through especially at the end of a snow event.

If unable to time the snow removal truck then please remove the snow around your vehicle if you are able or you may be subject to fines.

**The goal is to allow all parking spaces to be cleared of snow and ice.**

You may use the shovels when available at the rear exit to help clear around your vehicle.

Thank you for your cooperation in this important matter.
