RE: **Balcony Cigarette Butts**

Do not throw cigarette butts off the balconies.

There was a smoldering mulch fire recently at the front of the building caused by many cigarette butts littered on the mulch below the balconies.

This can cause property damage to the building, to the shrubs, plants and cause health issues with the smoke.

Anyone caught tossing cigarette butts onto the mulch or off balconies is subject to a \$100 fine.

Thank you for your attention to this important matter.
